

Patrick Dumoulin

Passionate about technology and computing, I have managed to combine my interest in these fields with my entrepreneurial spirit and my passion for music. Indeed, for three years, I ran my own event management business, a role that allowed me to develop skills in project management, leadership, and problem-solving. Furthermore, I have demonstrated creativity as a keyboardist for over five years, where I used virtual instruments on my computer for more than 250 performances.

My Portfolio: www.patrickdumoulindev.com

Experience

June 2024 - October 2024

ACEF de Québec

Software Developer (Temporary Contract)

- Developed a secure, database-integrated web application to replace ACEF's Excel system, allowing for streamlined data entry, client account management, intervention tracking, and workshop management. Added features include report generation and a robust comment and attachment system to support user workflows.
- Tech Stack: .NET Core, ASP.NET MVC, C#, SQL Server, Entity Framework, Git, Jira, Scrum

January 2019 - 2022

Les Productions BRB, Québec

CoFounder

- An innovative company that has produced several hundred events, our company brings together all the necessary services to create an event that meets the ambitions of our clients, throughout Quebec.
- My main responsibilities were:
 - Prospecting,
 - Field presence,
 - Social media management (content creation),
 - Accounting (issuing invoices, keeping books up-to-date, etc.),
 - Administration (drafting contracts, organizing files, etc.).

After three years of activity, I sold my shares to my two partners.

January 2016 - 2023

Self-Employed, Québec

Full-time Professional Musician (Keyboardist Saxophonist)

- With over 250 live performances to my credit, I have established a solid reputation as a professional keyboardist. Throughout my career, my main tools have been MIDI keyboards and plugins, requiring the use of my computer on stage. This particularity has enabled me to develop my ability to efficiently solve various computer-related problems under pressure, thus ensuring the smooth running of the shows.
- I am also a music producer under the name "You Were Here." My latest single has been listened to over 150,000 times. I have previously played as a keyboardist and saxophonist for well-known bands such as Mc12, Blue Ridge Band, and Les Mecs, among several others. I also have experience as a DJ.
